Elmütz Dismisses Defiant

Reagan, the Roaster.

Alleged Causes Six Make Ex-Commissioner Sizzle.

Prominent
State Co

**Mayor "Next" to Notorious
Resort, Hints Hutton.**

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, July 13.—[Ex-
clusive Dispatch.] Mayor Schmitz is-
sued the formal order today dismiss-

Commissioner Reagan from the Police Board. The letter of dismissal gives the following causes for his action:

- First—General unfitness to hold a position of public honor or trust.
- Second—Flagrant mendacity.
- Third—Disloyalty to the administration.
- Fourth—Lack of harmony, impairment of public honor.
- Fifth—Irreconcilable conflict between the interests of private business and the obligations of public office.
- Sixth—Inefficiency.

Reagan was more defiant than ever before. He defied the Mayor to prosecute him for slander and said:

"I am ready at any time to prove to you that I am innocent of any crime which you wish to charge against me. I am innocent of any crime which you wish to charge against me. I am innocent of any crime which you wish to charge against me."

He then said he would prove to the jury that he was innocent of any crime which they wished to charge against him. He then said he would prove to the jury that he was innocent of any crime which they wished to charge against him.

...I mentioned some things in
letter, I will tell about others some
later, I can prove every word
my.

Former P-Lice Commissioner Harry
Schmitz, who was removed from the
post by Mayor Schmitz, said today
that he could personally indorse many
of the charges made against
him.

Mayor. He said he believed his statement made by Reagan. He said his own removal of his war dogs from the machines and determined action on a notorious resort in which men intimidated the Mayor has been attested. Hutton said:

"Mayor Schumacher advocated keeping war machines in saloons and I would not consent he said, but I will give me the first chance he got, he did."

W. H. Leahy, formerly manager of the Hotel Westchester, who is in the office of president of the Commission by Mayor Schumacher, said he would be glad to be given to the eastern Pacific area.

Three of the to be stationed headquarters of one at Portland one at Los Angeles and two in the object of the army officers in their experience in road service in and also in railroad.

PRETTY GIRL LOSES HEAD.
WHY, SHE USED A SHOTGUN.
[DIRECT WIRE TO THE TIMES.]
HUNTLAND, July 12.—[Exclusive
Text.] Ethel Rooker, a pretty 18-
year-old telephone operator at Plain-
field for the farmers' independent line,
committed suicide at 8 o'clock this
morning by shooting the top of her
head with a double-barreled shotgun.

On yesterday the girl seemed in unusually cheerful disposition, and she noticed in her mother's face the same smile as she saw on the face of the man at the usual time, but as angry about something. Nothing unusual was noticed in the conversation between her and other members of her family.

After breakfast and when finished, which was the last of the members of the family had been in the island, she went into an adjacent room in which was kept a loaded gun.

head, she shot off the whole top of her head, dying immediately. She was nearly two years old when she was shot. Her father was a member for the independent telephone at Plainview. She was the daughter of W. L. Rooker, a well-known hunter of Crabtree.

WASHINGTON FRUIT CROP GREATLY SHORTENED BY DROUGHT.
DENICO, July 12.—[Exclusive Dispatch.] This State is harvesting its crop of berries and fruits. The crop in Eastern Washington is such that fruit is spoiling in many places for lack of sufficient pickers to harvest it. Growers of Puyallup and other valleys are unable to get enough men to pick the fruit. Many of Nevada suffer from a collar bone, that from a horse neck, and a narrow escape from a

Denico Out on Murder Charge.
SAN FRANCISCO, July 12.—[Exclusive Dispatch.] S. Denico, attorney at law, aged 45, father of a family, local banker, appealed to the court to face the murder charge against him by Dr. J. H. Brown. He was released on \$100,000 bond.

JAPAN IS

the crops grown on irrigated lands are likewise reported safe. Walls, Walls, Sunnyside and the valleys. In some spots were damaged. In some spots crop along Columbia River larger than the average. Growing fancy prices for apples, pears, Alaska and other fruits, Alaska and all markets are as Chicago and Detroit. Fruits are making good. Families refrigerator cars to furnish every fruit-shipping section.

The image shows a vertical, textured surface, likely the cover of an old book or a piece of weathered wood. The texture is grainy and uneven, with a dark, almost black, vertical band running down the center. The left side is lighter, showing a mottled grey and white pattern. The right side is dark and solid black. There are some small, dark spots and a faint, curved line near the bottom left corner.

POSTPONES ITS RUSSIAN VISIT.
British Fleet Might Intensify National Crisis.
Outlook for Peaceful Summer Little Brighter.

Premiership in Hands of the Constitutionalists.

BY THE ASSOCIATED PRESS.—P.M.

LONDON, July 13.—The visit of the British fleet to the Baltic has been postponed until a more propitious time.

The initiative in this decision came from Russia, which pointed out that the visit had been welcomed with satisfaction by the Russian government, which saw in it an expression of sympathy for Russia on the part of Great Britain.

Consequently, it is added, certain political parties in Great Britain and Germany, who had been agitating for a visit to the Baltic, are disappointed.

The news of the postponement of the visit has been received with satisfaction in the British cabinet, and is expected to subside the most powerful influences in opposition to the government are temporarily at least.

The government now takes advantage of the lull to make terms with the opposition in Parliament, there is still considerable opposition to the government, but the present tension, in the opinion of the best judges, can be easily overcome.

The government is expected to make a concession in the Chamber of Deputies, and it is believed that the only possible way to the present crisis is one of compromise.

However, that he cannot be a member of such a Cabinet. The government of the visit of the fleet to the Baltic has been postponed until a more propitious time.

AMMONIA PIPE SPOUTS ON CAR.

FUMES OVERCOME PASSENGERS IN NEW YORK.

Trolley Hits the Tube While Passing Underneath and Motorman and Engineer Lose Consciousness When Gas Escapes—Physicians Resuscitate Hysterical Women.

(BY THE ASSOCIATED PRESS.—A.M.) NEW YORK, July 13.—Several persons were prostrated by fumes from an ammonia pipe, which was struck by a trolley pole of a Brighton Beach train passing under a bridge connecting the Consumers' Brewery with the Consumers' Hotel in Flatbush today, and the lives of 200 passengers were imperiled.

Contact with the liquid itself was averted, as the men and women ran when they smelled the constantly growing odor. The motorman, James McCartland, was unconscious for half an hour through inhaling the fumes, and the engineer of the brewery, Paul Kirsche, was overcome in trying to stop the flow.

Connecting the two buildings about fifteen feet off the ground is a foot bridge along the bottom of which runs a heavy pipe used for forcing ammonia through to the hotel by the cold-storage plant in the brewery. There is a full pressure kept on this, and when the trolley pole of the first of a five-car train slipped off its wire and struck the clay pipe it broke and a heavy stream gushed forth.

As the trolley was off the wire the cars came to a stop in the early morning darkness. At first, unable to understand the cause of the delay the passengers, smelling the fumes, leaped from their seats, and when their faces as best they could jumped from the windows or clambered from the windows in their flight.

Unable to pull the trolley into place, McCartland armed himself with a lamp and found that the pole was lodged in the break of the pipe. Kirsche was sent for, and while he was working on the leak McCartland toppled over and soon was followed by the engineer. Physicians attended to several women, who were suffering from hysterics.

TAGGART'S CASE ON TRIAL.

Hotel Companies' Attorneys File a Demurrer at Beginning of the Proceedings.

(BY THE ASSOCIATED PRESS.—A.M.) PAOLI (Ind.) July 13.—Que. warrant proceedings brought by the State of Indiana against the French Lick Springs and the West Baden Hotel companies were heard today before Judge Thomas Eustice.

Att'y-Gen. Miller represented the State, while the French Lick Springs Hotel Company was defended by Alonzo G. Smith, former Attorney-General of Indiana; John W. Kern of Indianapolis and attorneys from Paoli and Salem.

The suit against the French Lick Springs Hotel Company was taken up first. Attorneys for the hotel company filed a demurrer, claiming the State had no legal capacity to sue. Thomas Taggart, president of the hotel company, sat by his attorneys.

NEW MOUNTAIN RAILWAY.
Switzerland's Alpine Roads Run to a Great Height—Latest Will Reach Highest Point Yet.

Switzerland, says Ernest Von Hesse in the Century, is the home of mountain railways. With an area not larger than one-third of the State of New York, there may be counted about a hundred railways for the sole purpose of carrying passengers to mountain tops varying in height from a few thousand to six or eight thousand feet.

The month of August, 1905, witnessed the opening of a way carrying tourists even far above these altitudes, beyond the clouds, to 10,500 feet; and, when completed, its highest point will reach nearly 14,000 feet above the sea; the top of the famous Jungfrau, the queen of the Berner Oberland.

There are other mountain railways on the globe attaining much higher altitudes than even this, and on the Oyoya railway of Peru I myself traveled a considerable distance above 16,000 feet; but most of these roads were built for the development of commerce and mining industries.

The Swiss mountain railways, however, are almost exclusively in the service of tourists only, numbering in Switzerland alone not far from 1,000,000 every year. They come to admire the scenery of the little country on the roof of Europe, or to seek shelter against summer heat at the many mountain resorts.

The majority of these mountain railways are paying investments. Switzerland being a country of mountains, is consequently also a country of water courses fed by the inexhaustible store of snow and ice covering many square miles of the Alpine chains.

Alaskan ice-fields are bedded in between the peaks right in the heart of Switzerland, and although a great deal has been written about the general recession of glaciers, which in some instances amounts to a hundred and more feet per year, such losses are quite insignificant compared with the enormous extent of these ice deposits.

A number of them have depths of several thousand feet, with millions of tons of solid, hard-frozen ice, continually supplied from fresh snowfalls above. They feed the Rhine and Rhone, Po and Danube, during the dry summer months, and the many mountain streams of Switzerland, forming beautiful cascades and falls and rapids, furnish the power which carry tourists in comfortable railway carriages to the very tops from which they themselves come. They are led to turbine pits, drive-wheels and generators, and are thus converted into electric power.

The Swiss, having no coal deposits of their own, have become acknowledged experts in this branch of technical engineering, furnishing turbines and electric plants for the world. Thus, for instance, the gigantic turbines at Niagara Falls, which generate forces of from ten to twelve thousand horse-power each, have been constructed almost without exception by Swiss firms.

REDOLENT GOLD INK.
Writing Fluid Containing Perfume, Used in China by Royal Scribes. Is Extremely Costly.

"This India ink," said the clever Chinese art student to a representative of the St. Louis Globe-Democrat, "has no more right to be called Indian than your American redskins have to that name. For India ink all comes from China, and India never produced a wick of it."

"Anhui, my own province, is the one where India ink is made. The best of the ink is kept at home, for the use of the royal scribes and the official literati. It is only the lower grade that is exported. This lower grade sells at wholesale in Anhui for \$1500 a ton."

"The very best grade India ink, the kind rich with gold, is worth \$75,000 a ton. The constituents of India ink are

TALK OR TALCUM?
If you are buying talk then buy anything the dealer may choose to say is "just as good."
If you are buying talcum, then Mennen's Borated Talcum is the only preparation which you can buy with satisfaction.
"Talk is cheap." Talcum, however, is not so cheap, because it costs the dealer more and makes his profit less. That's why he'd sooner sell you talk than "talcum" of the Mennen Brand.
Don't be talked out of buying Mennen's Borated Talcum, the only powder which can be used with safety and satisfaction.
Have you tried Mennen's VIOLET BORATED TALCUM TOILET POWDER? It's fragrant with the odor of fresh plucked Parma Violets.
For sale everywhere for 25 cents, or mailed postpaid on receipt of price, by

ENGLISH PENSION SCANDAL.

How Prime Minister Balfour Obtained a Pension for His Brother Gerald.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

LONDON, June 23.—As Prime Minister of England, the late Marquis of Salisbury looked well after his relations. Probably Arthur Balfour would never have attained such distinguished prominence in public life had he not had the good fortune to be the Marquis of Salisbury's nephew. But when he succeeded his uncle as Prime Minister he was able to find ample by doing his best for his connection. An instance in point is the granting of a pension of £6000 a year to his brother, which Balfour, under circumstances which have been carefully examined in any other country would be called scandalous, and in America especially so, obtained for himself. At Cambridge, Gerald Balfour took the first-class classical tripos and has since then been a shining example of the little class classic who uses the measure of a man's worth in this world—the day-world. He is 53 years old, and has been a member of the abundant leisure he has enjoyed to devote to an expert with the knitting needle. He was easy-going. Macramé work also came easily to him. It was not his lazy work it is also an adept. But these unusual maxims accomplished themselves in time suffice to keep the self from any man's notice.

Fortunately for Gerald Balfour, however, he had to make a living in any case, and the duty of education. His mother made him president of the Board of Trade, with a seat in the Cabinet, of about \$10,000 a year. Probably that office was given to him by a man with such little knowledge of anything connected with trade, and the duty of advancing the cause of the poor, as Prime Minister, Lord Salisbury, subject of creating a new office for his brother, that of Minister of Commerce, which he held until the death of the same, however, fell through. Meanwhile, there had been so much roughing over of Gerald's incompetence as president of the Board of Trade that he deemed it advisable to shift him, while his president of the Government, to the position of secretary, with a seat in the Cabinet.

When the Conservative government's resignation became inevitable the pension arose with heavy burdens on the poor Gerald who was so manifestly incapable of earning his own living. The duties of the pensions were taken on ex-Ministers. Arthur Balfour and them all preempted. The last former Chancellor of the Exchequer, Michael Hicks-Beach. Presumably applying for it Sir Michael had made some arrangements with the Government not allow him to receive the pension of an ex-Minister, though what involves nobody knows. After Sir Michael had had the pension for a piece of property to the value of \$50,000, which was considered standing the rule was worth. Notwithstanding the rule was Prime Minister, that the recipient of such a pension should be of such small account at any time diminished any considerable amount of money. Sir Michael still considered it in hanging on to the pension. There arose from the national pension for the chance of getting a pension. He did not like Sir Michael accepted it, taking care of his private affairs. Aldwyn. Then he agreed and accepted a dollar to the title of Lord St. Maurice. There is no direct way of course there is no direct way of course the offer of a peerage. Of course that was the price of his pension. That might get it, but few of the kind. Gerald Balfour applied for a pension the day after Sir Michael's death. He was told by the Treasury nothing of his self-denial. Arthur Balfour's last official act as Prime Minister and First Lord of the Treasury was to give the pension to his brother. And still Englishmen will maintain that there is nothing like political jobbery in England.

GIANT COMING OVER.

Russian Titan Who Towers Over Nine Feet and Weighs Nearly Four Hundred Pounds.

Nine feet three inches of giant, with dead hands and feet to match, will shake his appearance on a roof garden this summer if, at the last minute, he does not get a spasm of fright and refuse to sail from Cherbourg, says the Herald.

This Goliath, Machnow, known in Europe as the tallest man in the world. He is a Russian peasant, and all told there are 360 pounds of him—not so very many considering his great weight. His hands, from the wrist to the elbow, are five inches long, and twenty-four inches, and his feet are constructed in proportion. His head makes a hat big enough for two ordinary men, and his fingers require the aid of a pair of pliers.

Machnow once had an offer to come to this country and exhibit himself and he agreed. But just as the boat was about to sail his timidity overcame him and nothing could induce him to board the ship. He is now engaged to contract with Oscar Hammerstein, who believes he will come at the appointed time.

The giant is married to a woman of ordinary size and is very happy with her. He is fond of kissing her, and she is a hearty appetite. For breakfast he devours two quart bottles of milk or tea, sixteen boiled eggs, six or seven loaves of bread, half a pound of butter. For lunch he has two and half pounds of meat, five pounds of potatoes and a quart of beer. Dinner more elaborate, this being his menu for most days: A basin of soup, five pounds of meat, four quarts of vegetables, three pounds of bread and a quart or two of beer. His 10 o'clock supper consists of eight or ten loaves of bread and a quart of tea.

Father: Here, my boy, I have bought you a pair of English leather breeches. You won't tear them quite so easily as the last. (In the evening when the pants arrived.) What do you think of those? Have you been doing? Your trousers are all torn again!

Son: Oh, father, that was very simple! I've just sent them back and Fritz gave me the handle.—[Borne.]

This image shows a vertical, textured surface, likely the spine or cover of an old book. The material appears to be wood or a similar natural material, showing significant wear, discoloration, and a rough, uneven texture. The color is predominantly dark, with shades of grey and black, and there are lighter, worn areas. The right side of the image is a solid black background, suggesting the book is lying on a dark surface.

THE NEWSPAPERS' WAYS.
The reports of the routine proceedings are not likely to concern the Rio newspapers, which will be satisfied with long editorials and reviews on very important questions that will come before the conference. The Brazilian newspapers are much given to articles of this kind. One of their editors explained to me that they were

Yours sincerely,
SOPHIE B. WRIGHT

Everybody's Magazine

July Number

hardly do more than go ashore and see his black metropolis, for the very large proportion of the inhabitants are negroes. The diamond fields are scattered over a large area, and more can be leased about them at Tiffany's than at Bahia. Nevertheless, some people think that the Brazilian diamonds are picked up like pebbles along the beach.

POLITICAL PRISONERS UNRULY.
(BY THE ASSOCIATED PRESS—P.M.)
YELIZAVETGRAD, July 13.—Trouble broke out here last night, when a convoy of political prisoners which had

As Beatty entered a room about the middle of the house the thief leaped upon him. Beatty was taken unawares, but struggled bravely. Despite his efforts and the advantage of the burglar, who was much larger than Beatty, the undertaker gave the intruder a hard fight.

Pulling a blunt instrument from his hip pocket the burglar struck Beatty a stunning blow over the head. Beatty

compared with May, 1905, and the largest single month's importation in the history of the port. The number of automobiles imported in May was 134, including five domestic cars of the aggregate value of \$466,000. From January to May, inclusive, 53 cars, including thirty domestic, were imported at this port, of a total value of \$1,935,000.—[New York Tribune.]

DOG DETECTIVE DEAD.

"Major," Special Officer Foster's Chief Aide Will Be Mourned by Westlake Residents.

Big Major, famous as Special Officer Charles Foster's constant companion and chief detective, is dead. "Major" was only a dog, but the news of his death will be regretted in the neighborhood of Westlake, on Foster's beat. Nine years ago the mastiff was presented to Foster by Walter Vail.

"Major never missed a night on the beat," said Mr. Foster last night. "Except a few days when he was hurt. When I was sick and could not go out he went the rounds with one of the other men. He would go around any house I told him to and search the back yard carefully for indications of prowling. If there were any burglars or sneaks behind a house or in the grounds of a place I sent him to search he would find them."

"Besides this, he always answered every police whistle in the district and if a revolver was fired Major located it immediately and was on hand when I got there. When I put in the police signal lighting system Major caught onto the thing and if a light was turned on he would bark and make a dash for the nearest box and be there when I ran up."

"He was with me when I made some of my best captures. Seven years ago, when two hold-up men leaped upon me one night he was with me and helped in capturing them. During the day he played with the children on the lawn and at night he was with me."

"Day before yesterday he was taken sick and he died today. I had a coffin made for him and he was shipped out to the Laguna ranch this afternoon, where he spent his puppyhood. Mr. Vail's sons will bury him with honors when he gets there and I tell you he deserves it."

BANTAM FIGHT IS UNCERTAIN.

WALSH DEMURS AT GIVING NEIL BONUS FOR MATCH.

Eastern Manager Hopes, to Substitute Jim Bowker for Neil in Coming Fight—McCarrey Says Bowker is Too Uncertain for Him to Change Present Plans.

If Jim Bowker, the English bantam-weight champion of the world, wants a fight in Los Angeles, he will have to show Tom McCarrey that he is really looking for it.

This was put up to the Bowker people yesterday afternoon by McCarrey in a telegram to E. E. Keavin of Boston, who is handling Jimmie Walsh, who has wired the Pacific Athletic Club that Bowker will be available in September. Kevin wants Walsh and Bowker to hook in lieu of the Neil-Walsh match, scheduled for August in this city.

The telegram sent by McCarrey yesterday virtually told Kevin that it was up to Walsh to come through and fight Neil; that Bowker was too uncertain a proposition just at present. One of the hitches between Walsh and Neil is the bonus asked by Jim Neil.

McCarrey is maneuvering for a double-shot of the turn, and if he carries out his plans will have the winner of the Walsh-Neil bout meet Bowker here during the Asot season.

If Jim Neil waives his 5 per cent. bonus, it is believed Walsh will start West at once.

EDWARDS WANTS FIGHT.

San Francisco Who Has Won Many Battles, Will Come to Los Angeles.

Among the coming youngsters who will be seen in Los Angeles in the near future is Frank Edwards, the 125-pound scrapper of San Francisco, who has won his laurels through some rough battles with the best amateurs of the Coast. Edwards has challenged the winner of the Attell-Baker match, which comes off at the Pacific Athletic Club July 20.

He has won fourteen battles out of seventeen, and is at home in fast combat.

STILL AT MILL.

Mr. Sheriff, we will make it so that you won't want to go around here much longer. White will pick off your men. He won't get a 6—labor is going to be all right.

Mr. Sheriff, a striking sack was made of the Del Monte Milling Company. J. B. Robbins, a deputy sheriff, hired to protect the employees of the mill on their way home at night.

Bill Kiegar, J. Ferris, Frank Kim, C. C. Hart, Joe Carey and F. Ellis Alada, members of the Del Monte Milling Company, and strikers at the Del Monte Mill, were taken to jail.

VARICOCELE AND ALL OTHER DISEASES OF MEN Can Be Cured BY MY METHODS

Many men afflicted with varicocele are endangering their general health, their powers, and even life itself, by allowing the disorder to remain uncured. Many of them believe it is an incurable disease, which is far from being the truth, as I have demonstrated not only hundreds, but thousands of times.

Varicocele results from partial paralysis of the delicate nerve fibers that have a part in controlling local circulation of the blood. The muscular coatings of the veins, being deprived of nervous communication and control, become inactive, weak, and relax. The blood vessels expand from the pressure within, the circulation in the parts becomes sluggish, and frequent stagnant pools form in little nooks and pockets that constantly enlarge as the relaxation continues. The possibility exists that clots may form in these stagnant pools and then pass out into the general circulation. Should one find lodgment in a valve of the heart the result might be instant death, or should it be carried to the brain general paralysis would follow.

I guarantee to cure varicocele in one week by a method that involves no painful processes. No other physician employs a like method, and so thorough is my work that there need not be the slightest fear of a relapse into the old condition.

It is not a question of whether you can be cured, but whether you will be cured. Don't wait until it is too late. My method for the treatment of varicocele is perfect and quick. The cure is absolutely certain. I use NO KNIFE, cause no pain and you need not be detained from your work by one day. I especially solicit those cases in which the many so-called treatments have failed, or where money has been wasted on electric belts and other appliances.

EXAMINATION FREE

I offer not only FREE consultation and advice, but of every case that comes to me I will make a careful examination and diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble.

DR. TAYLOR & CO.

other budding professional, is looking for a match here, and may be accommodated. He is a 130-pounder, and made a great battle in the Olympic Club championship, fighting Les Powell to a standstill.

O'BRIEN MUST HURRY. Al Kaufmann is Ready to Take on Burns if Philadelphia Delays Longer.

Tommy Burns and Al Kaufmann will probably be the next heavy-weight card at the Pacific Athletic Club, despite the Jack O'Brien talk. Kaufmann is on Burns' trail with a vengeance and if the champion will consent to a match will immediately start West to prepare himself for battle. Kaufmann's local representative dropped in on Tom McCarrey yesterday and asked what had been done regarding O'Brien. It was agreed to wire O'Brien last night for a definite answer and if he failed to come through Kaufmann would be given the preference.

One hitch in the negotiations with O'Brien is believed to be the question of a purse. The "Macuna Kid" wants at least \$10,000 for the battle. As to Burns, he is willing to fight for gate receipts, and makes the logical deduction that there would be more money in the match with O'Brien than with Kaufmann and it would be more to his credit to beat O'Brien.

READY FOR HARNESS MEET.

Agricultural Park Presents Lively Scene Preliminary to Wednesday's Races There.

There is bustle and hustle around Agricultural Park these days, and the trainers, drivers, stable boys and other attachés are getting their charges in condition for the coming big harness meet to be held four days, beginning Wednesday afternoon with three good events.

Daily jogs on the now exceptionally fast track are rounding the nags into form and setting their stride. There are many features of the coming meet that make it one of the most important yet held. Among these is the free-for-all trot, destined to bring together the fastest harness performers of the State. This event will occur Thursday afternoon as the special feature. There are four entries and one or two more may be added. Those entered are Hazel Kinney, 2:09 1/4; Coronado, 2:12 1/4; Danube, 2:13 1/4; and Queer Knight, 2:14 1/4.

The big feature for Friday will be the running race for women riders. There are ten entries for this event, and it promises to be filled with excitement. Secretary Smith reports a good advance sale of boxes.

In all likelihood a relay race for women riders may be pulled off during the meet.

L.A.C. POOL TOURNAMENT.

Hutchins Makes Clean Slate for the Day and Jumps Ahead of McQuigg, Who Drops One.

There were five games played in the Los Angeles Athletic Club yesterday. J. A. Hutchins, had his winning clothes on and took two games, thus crowding Sam McQuigg for first honors. M. A. Marsh, Jr., also played through the day without a loss, and promises to become a strong factor in the going. McQuigg played but one game and lost that to T. G. Gordon. The scores for the day are as follows: J. A. Hutchins beat A. McKinney, 50 to 35; J. A. Hutchins beat J. B. Price, 50 to 35; T. G. Gordon beat Sam McQuigg, 50 to 35; M. A. Marsh, Jr., beat Phil A. Wilson, 50 to 27; M. A. Marsh, Jr., beat J. W. Routman, 50 to 45. The game between Marsh and Routman was a hard-fought and was anybody's up to the final run.

Greatest Nerve and Blood Tonic M. I. S. T. No. 2.

No. 2. M. I. S. T. No. 2.

I have given personal inspection to the working of M. I. S. T. on the human system, and must say that it entirely meets with my professional sanction. D. H. LOOMIS, Late Demonstrator of Anatomy, Philadelphia Medical College.

What We Guarantee M. I. S. T. No. 2 Will Cure

RHEUMATISM, no matter how long standing. Any case of inflammation of the bladder or Enlarged Prostate Gland, no matter if the patients have been years forced to use a catheter. ANY CASE OF HEMIPARESIS. It is not a stimulant. Its effects are permanent and lasting. Will cure any case of STRICTURE without local treatment. Will cure any case of Varicocele. Will remove entirely from the system Cancer and Cancerous Glands. In addition to the above, M. I. S. T. No. 2 has cured many cases of Paralysis, Locomotor Ataxia, Spinal Trouble and apparently incurable diseases of the nerves.

M. I. S. T. has been on the market for over twenty years, and has cured thousands of sufferers. It is prescribed by leading physicians all over the country. It is pleasant to take and absolutely safe. It never increases or diminishes the action of the heart.

M. I. S. T. is a new era in the treatment of all Blood, Liver and Kidney Diseases. Call at office for Free and Genuine, \$1.00 BOTTLE; 6 for \$5.00. Open evenings. Call for Free Sample. Home Phone 128. Sunset Broadway 4285. F. J. NORTH, Sole Agent, 428 South Main St., Los Angeles, Cal.

MEN GOOD RESULTS

Are Obtained Only by Good Methods. My methods are good because I have given time and study to their perfection. A treatment worth having can only be given by a thorough, painstaking physician's office. THIS IS WHERE I STAND.

Varicocele Cured 4 to 6 days. Many men suffer from varicocele and have many times treated without satisfactory results. I want to say to all such that my treatment, personally applied, will cure you in 4 to 6 days, and the cure will be permanent.

Functional Decline. Termed Weakness by Some. The success I have had in restoring functional derangement has been a great surprise to many who have met with failure in former treatment. It's the right treatment, applied in the right way, that brings the satisfactory results. My direct method all inflammation is removed and free, healthy circulation is established.

Contracted Diseases. Failure to quickly cure these conditions is due to harsh measures, which are the direct cause for chronic conditions. My treatment is most cleanly and perfect. I cure Rectal, Kidney and Bladder Troubles, Piles, Fistula and Blood Diseases, Wasting, Nervous and Chronic Conditions, causing functional derangement, impairing strength and vitality.

A Lifelong Cure

OTHERS MAY TREAT, BUT WE CURE. You must come to us sooner or later. Why not now? Refuse to suffer longer on promises of others.

Our Best Reference is, Not a Dollar Need Be Paid Until Cured. There are many men suffering from chronic Pelvic diseases, and the greater number of these victims are still more unfortunate in treating with doctors who know only enough to produce temporary results, or a false cure, if they succeed in benefiting the suffering at all. There is no such thing as a partial cure of a disease, and the physician whose method does not eradicate every vestige cannot rightfully claim to do more than relieve. Our Pelvic Methods Insure Every Man.

A LIFE LONG CURE

For Lost Vitality, Prostatic Troubles, Varicocele, Kidney and Bladder, Blood Poison, Special Diseases. Our cure is a thorough and scientific course of treatment, which acts at once upon the nerve force, stopping the drain and replacing the worn out and run down tissues. It increases the weight in sound, healthy flesh and muscles that gives strength and fills the brain and nerves with fresh vitality, building up the entire system and transforming the sufferer into a type of perfect manhood. If you cannot call, write for symptom blanks. Write us.

HUSBAND AND WIFE'S WAYS RUN APART.

Romantically United, the Singletons Seek a Prosaic Separation for Year, and Maybe Forever—Royal Is Mil- lionaire Husband's Settlement.

JOHN Singleton, aged about 60 years, some time a poor prospector and later a millionaire and bon vivant, lives in his apartments in the Van Nuys Hotel, sick, and refuses himself to all callers.

Mrs. John Singleton, aged 25 years, petite, rosy and with the fire of abounding health in her veins, is speeding eastward across the continent carrying with her a bulky bundle of certificates of stock in the famously rich Yellow Aster gold mine.

Mr. and Mrs. Singleton have separated as husband and wife, and the romantic story of the miner and the maid seems ended.

The separation is for the period of one year, with the string attached to it that if both parties are of the same mind at the end of the year the parting will be made permanent.

Mrs. Singleton will study music and literature in Europe, and endeavor to make out an allowance upon the interest at 6 per cent. of a paltry \$100,000 for the ensuing year.

Meantime Mr. Singleton will remain in Los Angeles and do his best to regain his health, for he is now a very sick man.

The separation of the Singletons, comes as a complete surprise to Angelenos, and was accomplished very quietly and with the utmost pleasantry upon both sides.

MILESTONE IN CAREER.

This separation from the wife of his old age marks but another milestone in the romantic career of Singleton.

From the days when he was grub-

staked about twice a year to prospect in the California goldfields up to the time he came upon the fabulously rich Yellow Aster, which made Randsburg one of the staunchest mining towns of the gold-fever days; through the divorce proceedings against the wife of his poorer days, and up to his marriage to the golden-haired maid from Seattle, John Singleton led a life filled with stirring incidents and romantic action, and finally capped the climax a few years ago by making a soul-

stirring splash into the inner circles of Los Angeles society.

The discovery of the Yellow Aster gold mine a score of years ago was the source of Singleton's wealth. In company with a man named Mooers and another named Burcham, Singleton struck "pay dirt" where Randsburg now stands. The mine is one of the richest in California, and it poured untold wealth upon the three poor prospectors. Time and again they were urged by corporate wealth to sell out, but refused and worked the mine privately.

The news of the strike caused the usual rush of gold-fever patients, and Randsburg was founded almost in a night.

ENTER THE PRETTY MAID.

Some time prior to this discovery Singleton had been divorced from his first wife. With the coming of unlimited wealth Singleton became widely known on the Pacific Coast as a man with a "barrel," who was lavish in opening it.

Los Angeles, San Francisco and up to Seattle Singleton and his two partners went; telling the story of the Yellow Aster and its seemingly unlimited gold.

These halcyon days soon palled upon Singleton and his state of single life grew wearisome. About this time he

MR. AND MRS. JOHN SINGLETON,
who have parted for a year with the understanding that the separation may be made permanent, and "Singleton Court," their beautiful Los Angeles home.

ROLLING FLOOR SALES CHURCH.

BELIEVING they have the "gift of tongues" and are chosen of God to carry the gospel to the ends of the earth, members of Pastor Joseph Smale's First New Testament Church worked themselves into a religious frenzy at a meeting last night in Burbank Hall. The leader, evangelist Boyd, announced that the church members will become missionaries to heathen lands.

Muttering an unintelligible jargon, men and women rolled on the floor, screaming at the top of their voices at times, and again giving utterance to cries which resembled those of animals in pain. There was a Babel of sound. Men and women embraced each other in the fanatical orgy.

One young woman jumped from her seat, screaming "Fraise Him! Praise Him! Praise Him!" and then fell in a writhing fit of hysterical weeping prone on the floor. None of the shippers could help her. She became unconscious and was left for hours where she had fallen.

"I am a woman," said one by an outsider why he did not secure medical aid for the young woman, smiled and said, "I will come out of that all right; she has the power and the Lord is working with her."

Sitting on the front seat was a pretty young woman, scarcely more than 19, who seemed greatly affected by the condition of the girl who had fainted. She was fashionably dressed. Suddenly she arose and began to cackle like a hen. Forth and back she walked in front of the company, waving her hands and saying anything which no one could interpret.

The leader explained that she was possessed of the gift of tongues. He said she would leave soon for India to teach the natives the gospel. Another woman testified that her husband had forbidden her to attend the meeting. She said she had refused to obey him as he is possessed of the gift of tongues. "I will tell you all to pray for him." This was a signal for the whole company to come forward and fall prostrate around the speaker. The women began to pray and prayed, shouted and muttered.

Pastor Smale was not present last night. He is taking a vacation. Evangelist Boyd is preaching in his stead. He is a short black-haired man, the early part of the meeting was

REV. JOSEPH SMALE,
in whose church men and women rolled on the floor and shrieked unintelligibly last night.

quiet. Boyd kept urging the people, especially the women, to testify. When he had the company rolling on the floor the leader clapped his hands for joy and smiled.

"We are having wonderful meetings here," he said. "Just such meetings as Evan Roberts had in Wales. This is like the Welsh revival and the people have the gift of tongues. Oh, this is wonderful."

"They drove our pastor, Mr. Smale, from the First Baptist Church because he had the power and now he has brought it to us. We are speaking with tongues and we are enjoying the religion those members in the big church might have had if they had not turned that good man out."

Under the leadership of Rev. Smale the members say the meetings have been made powerful. He conducted all-night meetings and is said to have sanctioned wild rites which have been practiced under the guise of religion. Each Monday the service begins at 9 o'clock in the morning and often continues until the same hour the following morning. Women have gone without food during these periods in their efforts to secure the coveted "gift of tongues."

made a somewhat long visit to the city, and here the minister and the maid met for the first time.

Miss Stella M. Graham of Seattle, a petite, fair-faced girl of about twenty summers, was visiting friends in San Francisco, and after a time was introduced to the miner. After that she was The Maid.

A year and a half of whirlwind courtship and the miner who had passed the half-century mark was wed to the maid just crossing the line into the twenties.

The marriage ceremony was performed in San Francisco, and the couple made a trip to Seattle, whence they shortly returned to Los Angeles.

OPENING SOCIETY'S DOOR.

During the mining days of Singleton he had carelessly neglected to pry open the door of Society in Los Angeles, and when he returned with his bride the door was still closed.

Nothing loth, the miner and the maid set about prying that stubborn door wide open.

The first move and one that almost spiked the guns of the enemy was the purchase of the beautiful and classic Longstreet Place, located on Flower street. The name was immediately changed to Singleton Court.

Encoined in this beautiful home the doors were flung wide open and Society, with a big "S," was invited. After this the onslaughts of the maid and the miner upon the citadels of society Los Angeles were picturesque and disconcerting to the social set.

It is not recorded what were the exultant fruits of the wonder campaign in which the gold from the Yellow Aster and the smiles from the maid went hand in hand.

TROUBLE AND DIFFERENCES.

During the last year or so, however, disaster and trouble seem to have marked the Singletons for their own. Sometime before the catastrophe to San Francisco the Singletons had taken up their residence in the St. Francis Hotel, there they entertained well, and soon surrounded themselves with a circle of friends.

In the fire Mr. and Mrs. Singleton lost every piece of their voluminous baggage, and came to Los Angeles very much neglected. Misfortune still clung to them. They entertained well, the San Francisco earthquake and fire, beautiful Singleton Court was burned, and they took up their residence at the Van Ness.

Some differences arose between the two, the real inwardness of which is only hinted at. Suffice it to say that shortly after Mrs. Singleton packed up her baggage and went to

(Continued on Ninth Page.)

THE FISHES?

For today the director of study and research is to come to bat, with all the learning he has stored up in his long and useful life, and is to combat with a woman for the privilege of being the city's official and duly-recognized fish-catcher and dealer of pabulum to the lowly student who knows what he wants but wants to know where to find it.

Yes, the crucial time has come. At 9 o'clock this morning the race will be on for the place of director of studies and the applicants are Dr. Jones, who has held the place for some time under an emergency appointment, and Miss Mrs. Williams, now engaged as a substitute attendant at the library, a graduate of the Massachusetts College of Veterinary of the library training classes of Pratt Institute, and for ten years engaged in public library work.

— EXAMINATIONS ON TODAY.

The examinations will open at the Grand-avenue school this morning at 9 o'clock. There will be tests of proficiency in writing, spelling, arithmetic, knowledge of the duties of the position, experience tending to fit for the position; physical health, muscular strength, soundness and acuteness of faculties, personal habits and other things.

The examination papers for the study and research position have been prepared. It is said, by eastern librarians, and another says, "They are stiff." However it is said that the temporary director of study and research has been engaged for many positions, and that the director will search on the lines of study and research for lo, those many days.

So it was that the morning might be a rather shady afternoon descending from the study and research department to the sylvan surroundings of the garden, and there, with sprinkling pot in hand, to pour upon the growing geraniums the moisture that was calculated to lead the way to a bluer and a finer day.

Likewise would he stand at the side of the fountain and call the fish around him, casting his forked tongue and tenacious upon the waters, with the hope, it is presumed, that it would return after many nervous tenses.

— EASY NERVOUS STRAIN.

It was a day of nervous tension with the director of study and research yesterday. With handkerchiefs wrapped about his neck to keep the perspiration from soiling his collar, he made his way to the library, armed with an opened copy of Fox's "Book of Martyrs," provided that, with the works of Bertha M. Clay and Richard

(Continued on Ninth Page.)

BLACKBERRY WHITE OUT.

JEFF WHITE, until yesterday acting manager of the Hotchkiss Theater, is no longer connected with that playhouse.

His connection with the theater, it is alleged, is entirely severed, and his foster-mother, Mrs. Mary A. Hotchkiss, who owns the house, is apparently a party to the transaction.

His removal has been accomplished by reason of a number of weeks of unprecedented extravagances, and is said to be the prelude to a complete change in the conduct of the house.

Edward F. Seamans, proprietor of the Olympic Opera Company, and Jeff White an equal part in the Hotchkiss productions, has just arrived in the city from Portland, and has taken complete charge of affairs.

Seamans was summoned from the North by a number of urgent telegrams from various members of his staff, including his secretary, the theater manager, and the treasurer of the theater.

However, Mr. Seamans will make no charges of personal nature against Jeff White, but says that his money losses were in the nature of uncalculated expenses, and that he has no recollection of specific appropriations.

White, who has had small experience in managing a theater, was the victim of prosperity.

During the last audacious season of different luck, Kolb and Dill brought a great deal of business to

the house. White had held various "improvements" in his mind for long time, and as soon as Seamans was out of town he began to put his schemes into execution. He built additions to the theater offices, purchased luxurious office supplies, followed out his own ideas in stage equipment, and made arbitrary changes in the working staff.

Robert Grayson, treasurer of the theater, and for many years a trusted employe and friend of Seamans, apparently got in the way of White's schemes. For two weeks ago he was suddenly dropped from the pay roll.

While White was building his own power, he is said to have whispered that the actors were badly paid, and money at times, and that their smoldering resentment has more than once come near breaking into open revolt.

White is still in town, and it was stated last evening that he had been confined to his bed all day with a severe attack of heart trouble.

A name hanker for the company has come into the picture, and whose name Seamans is unwilling to reveal as yet.

The future course will probably be decided by Seamans, who will take the lease of the theater upon his own show.

The next show will probably not go on until a week from Sunday. The present bill will probably be produced at tomorrow's two performances, and then the house will be closed for a week.

(Continued on Ninth Page.)

Dr. C. J. K. Jones feeding the public library fishes—one of the duties of the Director of Study and Research.

WHO'LL FEED THE FISHES?

Will Dr. Jones Again Nurture Library Pets?

Study and Research "Exams" Open Today.

Result Will Tell If Woman Succeeds Him.

"Ah, me!" he started again, just as they did when they sighed for love in the days of ancient Greece and at other times in the musty past, "who is to feed you when I am gone. But stay! I not yet am gone—I am not yet gone—gone yet I am not. But yet—? Ah, dear little fishes, who is to be the acanthopterian wet nurse after tomorrow? One, I hope, who is not an ichthyophagist."

Who could it have been that thus soliloquized in the classic precincts of the city's roof garden atop the Laughlin building?

Who but Dr. C. J. K. Jones, director of study and research at the Public Library, fountain-head of all that is bound up between the worn covers of the countless tomes that line the shelves of the public storeroom of learning and, may we also say, entertainment?

WHO BUT HE?

Who but the man who stands between the ignorant but knowledge-craving public and who, at the merest request, quickly responds with the information that if one desires to know something about the growing of mushrooms one may find it in a book on mushroom culture; about the stars, in a book on astronomical science; who adds to these duties those of feeding the gold fish in the fish pond and the watering of the geraniums in the reading-room, whose only roof is

the blue sky; who holds a stop watch on the young woman attendants as they arrive and depart, and who keeps the Lummia pages bound like a book. For today the director of study and research is to come to bat, with all the learning he has stored up in his long and useful life, and is to combat with a woman for the privilege of being the city's official and duly-accredited fish-feeder and ladder of pabulum to the lowly student who knows what he wants but wants to know where to find it.

Yes, the crucial time has come. At 9 o'clock this morning the race will be on for the place of director of study and research, and the applicants are Dr. Jones, who has held the place for some time under an emergency appointment, and Miss Mary Williams, now engaged as a substitute attendant at the library, a graduate of the Massachusetts Institute of Technology, of the library training classes of Pratt Institute, and for ten years engaged in public library work.

"EXAMS" ON TODAY.

The examinations will open at the Grand-avenue school this morning at 9 o'clock. There will be tests of proficiency in writing, spelling, arithmetic, knowledge of the duties of the position, experience tending to fit for the position; physical health, muscular strength, soundness and acuteness of faculties, personal habits and other things.

The examination papers for the study and research position have been prepared, it is said, by eastern librarians, and are reputed to be very "tough," wherefore it is said that the temporary director of study and research has been engaged for many weeks in a course of study and research on the lines of study and research for so, these many days.

So it was that the director might be seen on almost any shady afternoon descending from the study and research department to the sylvan surroundings of the roof garden, and there, with sprinkling pot in hand, pour upon the growing geraniums the moisture that was calculated to lead them to higher and better things.

Likewise would he stand at the side of the fountain and call the fish around him, casting brain food and other sustenance upon the waters, with the hope, it is presumed, that it would return after many days.

DAY OF NERVE STRAIN.

It was a day of nervous tension with the director of study and research yesterday. With handkerchiefs wrapped about his neck to keep the perspiration from soiling his collar, he might have been seen fanning himself with an opened copy of Fox's "Book of Martyrs," provided that, with the works of Bertha M. Clay and Richard

(Continued on Ninth Page.)

the house. White had held various "improvements" in his mind for a long time, and as soon as Seamans was out of town he began to put his plans into execution. He built additions to the theater offices, purchased luxurious office supplies, followed out his own ideas in stage equipment, and made arbitrary changes in the working staff.

Robert Grayson, treasurer of the theater, and for many years a trusted employee and friend of Seamans, apparently got in the way of White's schemes, for two weeks ago he was suddenly dropped from the pay roll.

White was building his own palace, though, it is whispered that the actors were badly in need of money at times, and that their smouldering resentment has more than once come near breaking into open revolt.

White is still in town, and it was stated last evening that he had been confined to his bed all day with a severe attack of heart trouble. A new backer for the company has been named, and then the house will be closed for a week.

(Continued on Ninth Page.)

HOTCHKISS STORM, MANAGER WHITE OUT.

T. JEFF WHITE, until yesterday acting manager of the Hotchkiss Theater, is no longer connected with that playhouse.

His connection with the theater, it is alleged, is entirely severed, and his foster-mother, Mrs. Mary A. Hotchkiss, who owns the house, is apparently a party to the transaction.

His removal has been accomplished by reason of a number of weeks of unprecedented extravagances, and is the prelude to a complete change in the conduct of the house.

Edward F. Seamans, proprietor of the Olympia Open House, and with White an equal part in the Hotchkiss productions, has just arrived in the city from Portland, and has taken complete charge of affairs.

Seamans was summoned from the North by a number of urgent telegrams from various members of his staff, including his secretary, stage manager, and the treasurer of the theater.

However, Mr. Seamans will make no charges of personal nature against White. He avers that his money losses were in the nature of uncalculated expenses, and that he has no record of any personal appropriations.

Following an extended season of indifference, Mr. Seamans and Dill brought a great deal of business to

the house. White had held various "improvements" in his mind for a long time, and as soon as Seamans was out of town he began to put his plans into execution. He built additions to the theater offices, purchased luxurious office supplies, followed out his own ideas in stage equipment, and made arbitrary changes in the working staff.

Robert Grayson, treasurer of the theater, and for many years a trusted employee and friend of Seamans, apparently got in the way of White's schemes, for two weeks ago he was suddenly dropped from the pay roll.

White was building his own palace, though, it is whispered that the actors were badly in need of money at times, and that their smouldering resentment has more than once come near breaking into open revolt.

White is still in town, and it was stated last evening that he had been confined to his bed all day with a severe attack of heart trouble. A new backer for the company has been named, and then the house will be closed for a week.

WANT INDIAN
AFTER SCALP.

Feeling Match Arranged
With F. S. Lewis.

John Post Forfeit to Be
Held by "Times."

Young Men Will Meet With
in Thirty Days.

Thirty days, John Middlekey, the Indian, will either be dangerous to the life of the veteran wrestler, F. S. Lewis, or he will be a victim of the wilds of Mexico. Middlekey, who is a native of the state of Arizona, has been in the city for some time, and has been making a name for himself as a wrestler. He is a powerful man, and has been successful in many matches. He is now in the city, and is looking for a match with Lewis. Lewis is a veteran wrestler, and has been in the city for many years. He is a powerful man, and has been successful in many matches. He is now in the city, and is looking for a match with Middlekey. The match is expected to be a great one, and will be held in the city in thirty days.

Takalon, the 25 to 1 winner of the Brooklyn Handicap, entered in the Brighton Handicap to be run today.

CREAM OF THE TURF,
TO RUN AT BRIGHTON.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, July 13.—Twelve horses of average class are named to compete tomorrow in the Brighton Handicap, the richest of the all-aged events of the Metropolitan spring racing season. The race, which is run over the Seaside course of the Brighton Beach Racing Association, has a guaranteed cash value of \$15,000, of which the winner takes \$3,000, the second horse \$3,000 and the third \$2,000.

No horse of the class of Irish Lord or Artful is in the list of performers in the field, who seem to have been brought so close together in the weight arrangement as to furnish the most interesting contest of the season. The ill-fated Dandelion, who finished second in the Metropolitan, the Brooklyn and the Suburban handicaps, and then fell down during the running of the Commonwealth, when that stake seemed to be at his mercy, is named to go in the Brighton tomorrow and will probably be installed as the post favorite.

Takalon, the winner of the Brooklyn Handicap, is among the Brighton favorites, but her chances are not seriously considered. Flip Flap, the game little mare which won the Advance Stakes at Sheepshead Bay, and finished third in the Brighton Mile last Tuesday, undoubtedly has a real chance for the handicap, and will be played quite as heavily as the favorite. Her liking for the distance, and the fact that she

eral principles. He made a number of bad decisions and while the players seemed to expect these from "Tapscott," they gingered up the game with their roars. The first column tells the whole story, but the Greeks got their two runs with the aid of errors by Eager and Gochnauer. Van Halten singled at the opening of the fourth and was safe at second on Kruger's fielder's choice that Burns did not get to second in time. In trying to catch Kruger's throw, Gochnauer threw the ball past Dillon and both men advanced a base. Van Halten scored on Helms' sacrifice and secured on Tomlin's double to left field. In the fifth singles by Burns, Randolph and Gochnauer, Cravath's sacrifice and a wild pitch, favored by Haley's error of Dillon's grounder, made three runs and the last one arrived on Randolph's single. Gochnauer's sacrifice and Cravath's drive over second base.

"There is no doubt about the value of Marconi's work. I believe in him."—Edison.

Marconi Wireless Telegraphy

is now accepted as a matter of daily commercial routine and is earning money every day, for its lucky shareholders, with constantly increasing revenues. Few realize the phenomenal growth. The Marconi system has now eighty stations carrying on in operation on more than one hundred trans-Atlantic liners. It has been officially adopted by twelve governments and is being extended as rapidly as it is physically possible. January last but twenty-nine thousand shares remained in the company's treasury.

The allotment of Marconi stock we offer for public subscription is small. We urge our friends to take advantage of the present figure, before it is too late.

We can state without fear of contradiction, that never before has opportunity been offered to purchase shares in a money-earning invention, comparable to Edison Electric Light and Bell Telephone, which have returned millions to those who had the foresight to buy when the price was low, in small monthly payments and which, should our not unreasonable prediction be realized, will return in dividends and advance in price during the installment period, an amount equal to the cost of the stock. We sincerely believe that within a few years, an investment in these securities, at the present low price, will enable the purchaser to live comfortably, without work, the balance of his life.

RIVERSIDE POPGUNS RACE.

Motorcycle Tournament at Driving Park Around Local Interest.

Good Time Made.

(BY DIRECT WIRE TO THE TIMES.)

RIVERSIDE, July 13.—[Exclusive Dispatch.] Considerable local interest was manifested in the motorcycle tournament which took place this evening at Riverside Driving Park, and a fair crowd was present. Considering that the track is only half a mile the time made was excellent. All the races were four laps, a distance of two miles.

The first race was between C. Folger on a two and one-half horse power Thomas and Race D. Woodward on a one and one-half horse power California. It was won by Woodward.

The second event was won by Dan Milian with a two horse power California, riding against L. D. Holmes on a three horse power Marsh. The time was 4:02.

H. McClure on a three horse power Marsh captured the third race from Charles Schofield on a three horse power Orion in the time of 3:49.

The star event was a race between Henry Miller on a three horse power Marsh against Harry Kreighbaum on a four horse power Mitchell. This was the result of a long controversy, and throughout the race an argument about the relative merits of the machines.

Miller won it in the good time of 3:21.

At Brighton.

NEW YORK, July 13.—Brighton Beach results:

Five and a half furlongs: Maxie Witt won; Albert F. second; Water Bearer, third; time, 1:48.

Six furlongs: Lady Anne, won; Consistent, second; Cressina, third; time, 1:52.

Five and a half furlongs: Frank Lord, won; Al Powell, second; Jaunty, third; time, 1:47 2-5.

Six furlongs: Lottilla, won; Aeronaut, second; Grenada, third; time, 1:45 2-5.

Five and a half furlongs: Selling Maxnard, won; Blenheim, second; Tartan, third; time, 2:06.

Six furlongs: McCarter, won; Elector, second; Ban Strong, third; time, 1:44 2-5.

At Latonia.

CINCINNATI, July 13.—Latonia results:

Miller: The Laurel, won; Labor, second; time, 1:44 2-5.

EIGHT HOURS OR WALK-OUT.

Railroad Union in San Francisco Makes Threat.

Granted Concession of Short Day It Wants More.

Ruef's Fine Hand Seen in the Commissioner Muddle.

SAN FRANCISCO, July 12.—The United Railroad is threatened with another strike. Some months ago the men in the employ of the company demanded that their hours of daily duty be reduced from ten to eight. After numerous conferences, Assistant to the President Mullaly, effected a compromise, by which the time was set to nine hours a day. After working two days on the new schedule, the men have again demanded an eight-hour day. Manager Chapman has asked them to take no decisive step until the arrival of President Calhoun from the East, and the union has voted to wait until July 15. If the company then refuses to grant the demand of the men, they will walk out.

Political groups are busy with the present strife in "Abe" Ruef's official family. The story is going the rounds that when Police Commissioners Pohlman and O'Grady went into the glass-ware business and sent word to the saloon men of the city that they would better be seen before applications for liquor licenses were taken up, Ruef discovered that something was going on in which he was not taking a hand. It is said that the "boss" at once demanded that he be made a member of the firm.

ARE OUSTED THEMSELVES.

Pohlman and O'Grady expressed the opinion that Ruef ought to put into the venture as much money as they, and refused to enlarge the firm unless he did so. Now the two officials mentioned are no longer Police Commissioners, and they have on their hands a large stock of glassware which the long-persecuted liquor dealers would not take at less than cost prices.

Police Commissioner Reagan, whose resignation has been demanded by the Mayor, and who refuses to step out under fire, incurred the displeasure of the "boss" more than a year ago. Reagan has been the one member of the Police Commission to fight for the closing of side entrances to the saloons and the upper floors of French restaurants. He introduced at a meeting of the commission a resolution limiting French restaurants to the ground floors of buildings, and it was adopted.

Soon thereafter, the restaurant proprietors met and raised a fund of large dimensions, to be used in regaining their lost ground. Some one high in authority was "seen," and as a result, the Police Commission at its next meeting rescinded its former action. Reagan, who had been sincere in his crusade, alone voted against the rescinding resolution.

Realizing that he had been used as a cat's paw by Ruef, he was lukewarm in his support of the Schmidt ticket at the last election, and long ago it was known that he had been slated for removal. Mayor Schmidt only awaiting a favorable opportunity that would provide a logical excuse.

MYSTERY IN PETITION.

Several weeks ago a petition was circulated and received numerous signatures, asking that the Board of Supervisors grant a franchise for an electric railroad on Van Ness avenue. So unanimous did the sentiment of business men along the avenue appear that it seemed probable that the franchise would be granted forthwith.

Then several members of the Van Ness Avenue Dealers' Association called a meeting of that organization, with the object of raising objections to the granting of the slightly thoroughfare with rails. At the meeting it developed that none of the members of the association had signed the petition, and that they were unanimously of the opinion that there should be no railroad on the avenue. It was found that several names had been forged, and that the balance were those of citizens having no interest in the locality. If an attempt be made now to grant the franchise, it will stir up an awful rumormongering.

Ground will be broken this week for the new Hotel Majestic, at the corner of Sutter and Gough streets. Gustave Maun, the lease and manager, has accepted plans for a structure to cost a quarter of a million dollars. With the exception of the Palace Hotel, this will be the largest caravanserai planned since the fire. It is expected that the building will be completed for the opening on the coming New Year.

LATEST BUILDINGS PLANNED.

The Beck Bros., two physicians of Frankfurt, Germany, owning property in this city, intend to erect two class B buildings, on Third and Market streets, each to cost about \$40,000. Both will be of reinforced concrete and four stories in height. Most of the store space in the proposed buildings already has been leased.

W. S. Wood will build a four-story class C structure at the corner of Kearny and Merchant streets. It will be of brick, with steel columns and girders.

Work has been commenced upon a two-story brick building, the latest in Renaissance style, to be erected upon a lot owned by Henry A. Bothin at Leidesdorff and Sacramento streets. Its cost will be \$50,000.

The Santa Fe company has filed with the Board of Public Works applications for permits to erect two large freight warehouses on China Basin, which will be made the terminal of the company in San Francisco. They will be of wood, with a combined length of 1000 feet, and will cost \$100,000.

A company headed by D. J. Alberga will build a skating rink with an area of 35,000 square feet at the corner of Post and Steiner streets. It will be opened early in August.

OFFICER EATS AN OWL.

Meets in Line When Roll is Called and is Much Embarrassed by Incident.

Also, Grievous, a butcher, and William Wagner, a saloon man, whose places of business are on Patrolman Roy Winterton's beat, along East First street near San Pedro, were stopped by the big policeman Wednesday. "What have you in the package?" asked Winterton.

"Just a chicken," one replied. "You see, we went out shooting this afternoon, and not finding any game we shot a chicken."

"I like chicken," declared Winterton. "Well," replied one, "drop over to the restaurant after you are off duty and help us eat it."

Winterton was on hand. He was told that as long as he was the guest of honor he should have the bird they killed on the trip, and that they had purchased one each for themselves.

Single breasted sack suits, with wide and medium lapels; half or full lined, light weights, in blue serge, mixtures and two tone woolsens.

These suits are for hot weather wear and the particular man. Sizes for all. Fat and tall. Prices for all. Satisfaction for all. Good for all. That's all. Call.

Store closes at noon today.

Buy Your Shoes This Morning

This store closes at noon Saturdays. We believe in giving employees a little time for rest and recreation in warm weather.

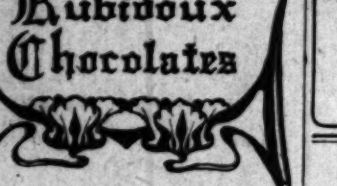

It's more satisfactory for you to buy shoes in the morning. You'll avoid the heat of the afternoon and evening and will have the service of salesmen who are not tired, wornout and indifferent to your wishes.

Buckskin Footwear

The constantly increasing demand for buckskin shoes, sandals and oxfords is strong proof of the comfort and satisfaction this ideal summer footwear gives. This store carries a complete line for men, women and children. All styles and sizes. Try buckskin shoes—you'll like them.

Mail orders carefully filled. Send for self-measurement blank.

Lily Cream

Nature and Science can go no further toward perfecting the LILY CREAM. Ask your grocer.

Handsome pin cushion sent free for 25 wrappers from the case of Lily Cream. Ask for the Lily Primer—it's free.

Pacific Creamery Co. Los Angeles, Cal.

Grievous declared that he had dressed the bird himself.

They ate. The next day Winterton was troubled by a fluttering in the vicinity of his stomach. Yesterday he hooted in line when roll was called.

When told of Winterton's peculiar attack in the Police station, one of the men remarked: "Heavena, was it serious? Why, we shot an owl, and thinking to play a joke on 'Babe,' we just fixed it for him."

We Close at 12:30

This store will be closed every Saturday until September 15 at 12:30.

Some Offerings that Will

Induce Early - Morning Buying

Colored lisle and silk-mesh gloves with lisle palms, in two-clasp style, at forty-five cents; regularly 75c, \$1 and \$1.25. Grays, tans and modes.

HOWLAND & CO. PHONES 311 310 South Broadway

Photo Supplies Artists Materials Picture Framing Developing Printing and Enlarging

The first quality stamp is on everything that comes into this store. If we advertise an article as selling below value, you may depend upon finding the thing just as advertised, and (unless otherwise expressly stated) in sufficient quantity to last for a day or longer. In short, we count your complete satisfaction in each purchase of far greater value than the profit it represents to us.

You'll Enjoy Your Plunge

In these well-made, well-fitting bathing suits at \$1.65, \$2, \$2.50, \$3, \$3.50 and up to \$25. You can give your fancy free rein here. There isn't a stock of women's and misses' bathing suits hereabouts to compare with ours in point of size, variety or value. And stout women have been just as well provided for as slender figures. There are suits with shield fronts, sailor collars, square, round or high necks, in mohair or silk, black, blue, red, brown and white. Caps 15c to \$1.25. Bathing shoes in all sizes, 28c to 80c. Children's waders (1 to 4 years) 85c.

This is the last day of the children's undermuslin sale, but so ample have preparations been that belated mothers can still make satisfactory selection at little prices.

Silk Remnant Sale

Such a hubbub as there was yesterday over the values in these half price remnants. And while of course many went, there are plenty of tempting bargains left for this morning's wise shoppers. Silks of every sort, weaves and color, foreign and domestic makes, from the inexpensive lining taffetas to elegant exclusive gown stuffs—at half regular retail prices. Lengths from 2 to 12 yards.

Printed Batiste 10c yd.

Every time we get a lot of these fancy printed batistes and tell of them, they're gone in a jiffy. This lot of which we got so many patterns yesterday, is the last yet, and the price is as attractive as the goods—10c a yard, you consider it very reasonable at 15c.

More 35c taffeta ribbons in plain colors, to sell at 25c a yard, six inches wide.

To Select in a Hurry

Dailings by the yard, 25c, regular prices 35c to 75c a yard. Neckwear in lace stocks and embroidered turnover styles, 50c, regular prices 75c to \$1.50.

Made belts of kid or silk, in colors and white, 50c, regular prices 75c to \$1.50.

Men's Summer Furnishings

About the most comfortable place to be these days is chin deep in the surf. And you'll enjoy the plunge a hundred per cent. more if you own your suit, instead of renting it. We've got the abbreviated styles, and the full arm and ankle lengths, for the man who doesn't relish being sunburned. Sizes as well for the little fellows—from \$1.50 to \$4.00 a garment.

We're trying to keep hot men cool with the right sorts of underwear. Hard propositions to be sure, but if you'll try fish net or Dr. Deimel's and Ramie mesh undergarments, you'll think you'll notice a marked difference for the better in your temperature.

Shirts that are made to show to advantage with two-piece suits are here in plenty, selected by a buyer with an eye to looks and economy. 65 cents buys a remarkably neat pattern—others for more.

Coulter Dry Goods Company

225-7-9 South Broadway. 224-6-8 South Hill Street.

SOUPS For Summer Use

We have Franco-American, Bishop's, and Van Camp's Soups—all varieties in large and small tins. Just a little bit of fire required to heat them. No need to stand over a hot fire for hours. Telephone for your favorite kind today. Our prices are right.

WE ARE RELIABLE GROCERS.

Either Phone 950 Carr Stephens 621-623 SOUTH BROADWAY

BETTER HAVE THAT SUMMER SUIT MADE TO YOUR MEASURE

You get so much more style—far better quality—and decidedly better fit than you can get in any readymades, and still you don't pay as much as you do for readymades. \$15.00 buys one of these made-to-order Scotch Suits. Other tailors charge \$25.00 to \$30.00 for suits no better. Better come in and talk it over any day, now.

JUDGE REBUFFS LABOR UNIONS.

MOVE TO HAMPER CITY'S WORK MEETS WITH SET-BACK.

Street Superintendent of Redlands Upheld in His Contention, That Eight-Hour Day is Invalid Where Improvements Are Made Under the Workman Act.

REDLANDS, July 12.—Street Superintendent C. E. Iverson won the first and today in the case recently brought against him by H. Simpson, on behalf of the labor unions of this city, it being charged that Iverson had the street laborers more than eight hours a day. When Iverson was asked, City Attorney Leonard filed a demurrer to the charge, claiming that the law under which he was arrested is illegal, as it conflicts with the Workman Act, under which the city is operating. The case is being argued in the Superior Court today.

REDLANDS, SHORTHAND. The orange season is practically over. It is said there are from ten to fifteen cars yet to go forward, but the fruit is showing up at this time. This brings the total output of the season up to 3014 cars, which is less than the output last season. The indications for the season are not bright, as there is a shortage now in fruit upon trees. The result is that the monthly meeting of the board of the Association, held last night, it was reported that \$3014 cars received on the recent car fund to defray current expenses of the Association. E. S. Libby, who has been prominent in the work, was presented with a pair of gold cuff buttons.

RECORDING OF CALIFORNIA STREET IN automobile last evening. Dr. Howell Tyler ran into a pile of the street, throwing Mrs. out of the car. The driver, rendering assistance for a time and badly injured.

RECORDING OF CALIFORNIA STREET IN account of lack of interest and want of capital, it is likely to be project to open the Lawton military school will be the result. Some talk of converting the historical site into the home of Gen. Lawton, into a museum.

RECORDING OF CALIFORNIA STREET IN operations, preparatory to raising of Fifth street through the street to Vine has been begun. The buildings being removed at the beginning of the grading.

RECORDING OF CALIFORNIA STREET IN West, Coronado is best.

MENT STARTS WALL AGAIN.

BEAR VALLEY DAM NEARS COMPLETION.

Present Year Arrowhead Company is to be in Deliver Water for Irrigation of Lands Between Redlands and Los Angeles County Line.

BERNARDINO, July 12.—Monday morning activity was resumed on the concrete dam to be built on the Bear Valley dam, and the announcement that there will be another interruption. The dam work was held up by the heavy rain, and the machine has been in the valley, an immense force of work has been hired.

RECORDING OF CALIFORNIA STREET IN the close of the present year the task of transforming the valley into a great reservoir is completed, and the Arrowhead Company is in a position to deliver water to the mountains. The water will be sufficient for the use of every acre from the east to the Los Angeles line on the west.

RECORDING OF CALIFORNIA STREET IN the recent heavy rain, the dam is in a position to deliver water to the mountains. The water will be sufficient for the use of every acre from the east to the Los Angeles line on the west.

HE GETS OFF TOO QUICKLY.

SANTA ANA MAN HAS A NARROW ESCAPE.

Lighting from Car While It Is in Motion He Receives Severe Injuries. Is Picked Up by Car Crew Bled Cut and Bruised—No One Is Held Responsible.

SANTA ANA, July 12.—Joseph McCoy, an elderly rancher of Westminster, had a narrow escape yesterday afternoon from being killed. Mr. McCoy was returning from Los Angeles and stepped off a moving car near the intersection of the main highway and the Santa Ana River. He was struck by the car and suffered severely from the shock.

The injured man was picked up by the train crew and brought to this city, where his injuries were dressed by Dr. Gordon. He was then sent to the hospital.

"Judge" McCoy, as he is better known in this section, had been to Los Angeles, and was returning home on the electric car that leaves that city at 2:30 p.m. It is said that he wanted to get off at Westminster, and instead of waiting until the car came to a full stop, attempted to alight while it was still in motion. He missed his footing and fell heavily to the ground.

The car was stopped as quickly as possible, and the crew went to his assistance. When picked up, the blood was streaming from several cuts in his face, and he appeared to be greatly shocked by the fall. He was made comfortable as possible, and on the arrival of the car he placed in the care of Dr. Gordon.

An examination showed that while his injuries were painful, they may not be fatal. He is believed to be suffering from the shock of his fall.

The crew consisted of Conductor McCracken and Motorman Brooks, but they are not considered responsible for the accident.

HEART FAILURE.

Mrs. Hannah R. Talcott, a well-known resident of this city, died suddenly this morning of heart failure, at her home, No. 1906 North Main street. Mrs. Talcott has been ill for some time, but was feeling better yesterday, and none of her friends or family apprehended any immediate danger.

This morning she passed away. Mrs. Talcott was in the fifth year of her age, and leaves many sorrowing friends and relatives.

The funeral will be held at the residence of her husband, J. M. Talcott, Sunday afternoon, at 3 o'clock. The Rev. A. H. Hooker of the First Congregational Church will officiate, and the interment will be in the Santa Ana cemetery.

Mrs. Talcott is survived by her husband, J. M. Talcott.

Miss Thompson has taught at San Bernardino for a number of years, and Miss Shoemaker, who resides at Orange, has also had several years of successful experience as a teacher. Mr. Goetz and Miss Christensen are both reemployed. The principal will receive \$85 per month, the others \$70 each per month. The term will begin September 17.

French sailors at Coronado on the 14th.

SEASON IS CLOSING.

Apriest Crop in Vicinity of Ventura Will Be Gathered This Week.

Fruit Sales High.

VENTURA, July 12.—The apriest season is drawing rapidly to a close in this county, and the last of the present week will see the crop all gathered and dried. Though the crop has been small, scarcely half of last year's production, the size of the fruit has been extraordinary, while the price has been double that of last year, and bids fair to be still higher, though there are no buyers in the field as yet at a greater price than 12c per pound. It is thought the price will go to 15 cents before a great while. At any rate growers are holding on for that figure.

BEACH BREAKERS.

H. C. Gillis, in company with President Adams of the local water company, visited this section a few days ago. It is reported that next Tuesday something will "drop" of vital interest to the town. Mr. Gillis is said to be a representative of George Harrison of railroad fame, and it is reported that his visit has something to do with electric-road building in this county.

Longworth, the celebrated racing stallion, died at Ferndale yesterday aged 22 years. The stallion was well known among horsemen and belonged to the estate of the late A. C. Dietz. Some of Longworth's colts attained to national reputation as pacers.

Mrs. Barker of Pasadena and Mrs. Parnsworth of Los Angeles arrived here yesterday, bringing with them the infant of Mrs. J. E. Barker, the mother of the babe having preceded these ladies to have the advantage afforded by the Bard Hospital here, where she now is.

Mrs. Ed. Newby and son have gone to Mojave for a visit with Mrs. Newby's father, Dr. Denney.

Twombly says his apricot output this season will be eighteen tons.

"Hotel del Coronado," the society resort.

SANTA BARBARA PROSPEROUS.

Postal Receipts for the Year Show an Increase of Nearly Five Thousand Dollars.

SANTA BARBARA, July 12.—Assistant Postmaster Frank Miller has completed a computation of the postoffice receipts for the fiscal year ending June 30, which shows that there is an increase over the fiscal year ending June 30, 1906, of nearly \$5000. The figures are: For the fiscal year 1905-06, \$38,903.77; for the fiscal year 1904-05, \$34,232.95. The postoffice has returned a gain of about \$5000 per year for the past three years, an average increase of about \$500 per month, taking the year through, and comparing each month with the corresponding month of the year preceding. The postmaster's salary has increased in proportion, at the rate of \$100 per year, and is now \$2200.
